

Policy for Limit Setting

In terms of Exchange requirements the company has decided to implement the policy for setting up of trading limits on the exchange terminals. Accordingly the following policy shall be followed while setting up of limits:

1. Branch Buy/Sell Limits

- a. In Commodity Segment Branch Buy Value and Branch Sell value limits shall be set by the Corporate Manager for both Futures and options.

2. Dealer Buy/Sell Limits

- a. In Commodity Segment Buy/Sell Value Limits shall be set by Corporate Manager / Branch Manager.

3. Order Value Limits

Apart from setting up of branch / terminal wise limits, Corporate Manager shall set Order value limits for both maximum order quantity and maximum order value.

4. Market Price protection Limit

Corporate manager shall also set up market price protection limit for each dealer.

- 5. In Commodity segment Corporate manager may also set up symbol wise limit for each scrip as and when the corporate manager may deem fit since it is not practicable to set and modify such limit in all cases.
- 6. Corporate manager shall review these limits from time to time and in case any amendment is made in existing limits, record of such modification shall be maintained.
- 7. Corporate manager shall ensure that none of the limits mentioned above has been set as Unlimited.
